

January 7, 2011

Happy New Year! We trust your 2010 Holiday selling season was successful and you're ready to go for 2011!

Roger is ramping up, ready to leave for Tanzania and Kenya on Monday. He's excited!

Did you know Roger is one of only a couple hundred people who facet gemstones for a living in North America? That number becomes a handful when only those that travel overseas to acquire their own rough are considered. Roger brings to gem cutting a background in the gem trade, 30 years of experience regarding consumer desire, 30 years of educating himself and being a driving force for integrity, responsibility and change within the jewelry industry.

Peridot 10.14ct.

We hope 2011 is off to a great start!
Ginger
